NORTH DAKOTA COMPUTER AND INTERNET USE ON FARMS

FARGO, ND, August 19, 2015 -- According to the USDA's National Agricultural Statistics Service, 78 percent of North Dakota farms had access to computers in 2015. This compares to the national average of 73 percent. Seventy-five percent of farms in North Dakota had internet access, up 2 percentage points from the last time this data was collected in 2013.
